A YEAR OF SMALL STEPS

Economist, 12-month plan

15 October 2026

Skills your child will build

Data Analysis | Stakeholder Communication | Policy Strategy | Presentation Skills | Critical Thinking | Research Skills

MONTH 1

Pocket Money Tracker

Skill you'll build: Data Analysis

Project details

Record your weekly pocket money for a month and note how you spend it. Use simple charts to show your spending trends and savings. Share your findings with family to discuss smart money habits.

Success criteria

- Created clear charts showing spending patterns
- Explained insights to family

Time: 3-4 hrs / month

MONTH 2

School Snack Survey

Skill you'll build: Stakeholder Communication

Project details

Interview 10 classmates about their favorite snacks and prices. Summarize the results in a simple report and suggest a popular affordable snack to the school canteen.

Success criteria

- Collected data from 10 peers
- Presented a clear snack suggestion

Time: 3-4 hrs / month

MONTH 3

Eco-Friendly Poster

Skill you'll build: Policy Strategy

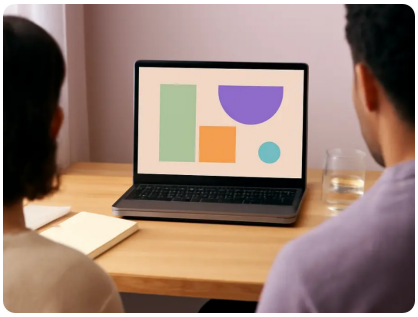

Project details

Research one way to reduce waste at school and design a colorful poster promoting it. Display the poster in your classroom or community area to encourage action.

Success criteria

- Poster clearly explains waste reduction
- Poster displayed publicly

Time: 3-4 hrs / month

MONTH 4

Mini Market Presentation

Skill you'll build: Presentation Skills

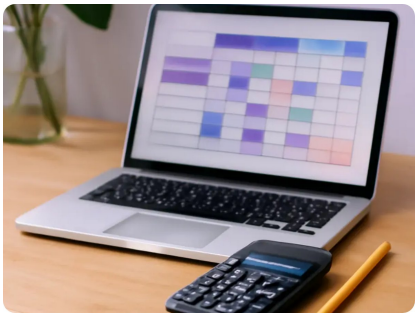

Project details

Create a short presentation on how a local market works and its importance. Use simple slides and present it to your family or friends to practice speaking skills.

Success criteria

- Prepared slides with key points
- Delivered presentation to an audience

Time: 3-4 hrs / month

MONTH 5

Cricket Match Stats

Skill you'll build: Critical Thinking

Project details

Collect scores and player stats from recent cricket matches online or TV. Analyze which player performed best and explain why using simple reasoning.

Success criteria

- Collected accurate stats
- Provided clear reasoning for best player

Time: 3-4 hrs / month

MONTH 6

Interview a Shopkeeper

Skill you'll build: Research Skills

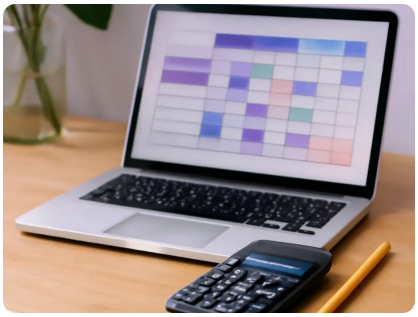

Project details

Visit a local shop and ask about how they decide prices and manage stock. Write a short report summarizing your findings and what you learned about running a business.

Success criteria

- Completed interview with shopkeeper
- Wrote clear summary report

Time: 3-4 hrs / month

MONTH 7

Budget Your Festival Gifts

Skill you'll build: Data Analysis

Project details

Plan a budget for buying gifts during a festival using a simple spreadsheet. Track costs and suggest ways to save money while buying meaningful gifts.

Success criteria

- Created a clear budget plan
- Suggested practical savings

Time: 3-4 hrs / month

MONTH 8

Community Needs Chat

Skill you'll build: Stakeholder Communication

Project details

Talk with neighbors about one community problem and gather their ideas for solutions. Summarize the discussion and share it with your school group or family.

Success criteria

- Collected diverse community views
- Shared summary with others

Time: 3-4 hrs / month

MONTH 9

Design a School Rule

Skill you'll build: Policy Strategy

Project details

Identify a school issue and propose a new rule or policy to improve it. Write a clear explanation and discuss it with teachers or classmates for feedback.

Success criteria

- Proposed a clear policy idea
- Received feedback from peers or teachers

Time: 3-4 hrs / month

MONTH 10

Explain an Economic Concept

Skill you'll build: Presentation Skills

Project details

Choose a simple economic idea like supply and demand and create a short video or talk explaining it with examples. Share it with friends or family.

Success criteria

- Created clear explanation
- Shared with an audience

Time: 3-4 hrs / month

MONTH 11

Compare Prices Online

Skill you'll build: Critical Thinking

Project details

Pick three products and compare their prices on different websites or stores. Analyze which offers the best value and explain your choice logically.

Success criteria

- Collected accurate price data
- Provided logical value comparison

Time: 3-4 hrs / month

MONTH 12

Research Local Jobs

Skill you'll build: Research Skills

Project details

Find out about common jobs in your area by reading online or talking to adults. Write a short report on what skills are needed and how these jobs help the community.

Success criteria

- Gathered job information
- Wrote clear community impact report

Time: 3-4 hrs / month
