A YEAR OF SMALL STEPS

Economist, 12-month plan

A day in the life

In the 2030s, economists will work closely with advanced AI systems that analyze vast amounts of data quickly. They will focus on interpreting AI insights to guide fair and sustainable economic decisions. Human skills like ethical judgment and clear communication will be essential to balance technology with real-world impacts and to explain complex ideas to diverse groups.

Skills your child will build

Data Analysis | Stakeholder Communication | Policy Strategy | Presentation Skills | Critical Thinking | Research Skills

MONTH 1

Monthly Pocket Money Chart

Skill you'll build: Data Analysis

Project details

Track your pocket money each week for one month and record how you spend it. Use simple tools like paper or a spreadsheet to create charts showing your spending and savings trends. Make a summary report explaining what you learned about your money habits. Share your charts and report with your family to discuss ways to save and spend wisely.

Success criteria

- Created clear charts showing weekly spending and savings
- Explained spending habits to family members

Time: 3-4 hrs / month

MONTH 2

School Snack Price Survey Report

Skill you'll build: Stakeholder Communication

Project details

Interview 10 classmates about their favorite snacks and how much they cost. Collect the data and organize it into a simple report with charts or lists. Suggest one affordable and popular snack to the school canteen based on your findings. Present your report to a teacher or family member for feedback.

Success criteria

- Collected snack preferences and prices from 10 classmates
- Created a clear report with a snack recommendation

Time: 3-4 hrs / month

MONTH 3

Waste Reduction Awareness Poster

Skill you'll build: Policy Strategy

Project details

Research one way to reduce waste at your school, such as recycling or using reusable containers. Design a colorful poster explaining this idea with facts and pictures. Display your poster in your classroom or a common area to encourage others to reduce waste. Take a photo of your poster in place to share with your teacher or family.

Success criteria

- Designed a clear, informative waste reduction poster
- Displayed the poster publicly at school or community

Time: 3-4 hrs / month

MONTH 4

Local Market Presentation Slides

Skill you'll build: Presentation Skills

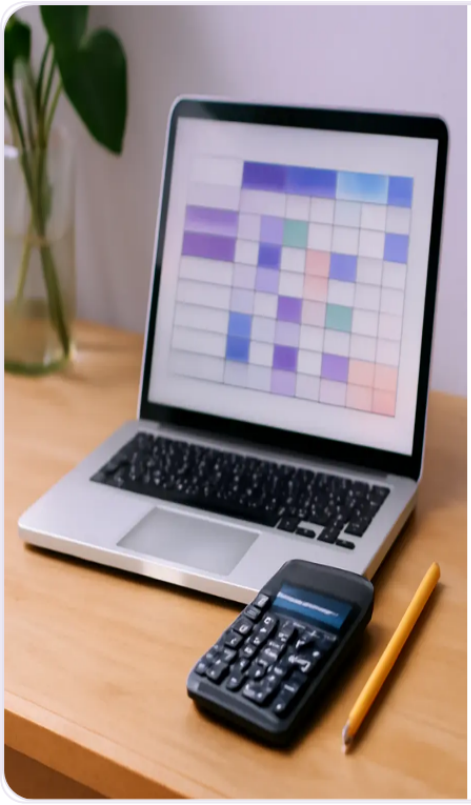

Project details

Learn about how a local market operates and why it is important for the community. Create simple presentation slides highlighting key points about vendors, products, and customers. Practice your presentation and share it with your family or friends to explain what you learned about markets.

Success criteria

- Prepared slides with clear information about a local market
- Presented the slides to family or friends

Time: 3-4 hrs / month

MONTH 5

Cricket Player Performance Analysis

Skill you'll build: Critical Thinking

Project details

Collect recent cricket match scores and player statistics from TV or online sources. Analyze the data to decide which player performed best using simple reasoning. Write a short report explaining your choice with supporting facts. Share your report with a friend or family member interested in cricket.

Success criteria

- Gathered accurate cricket match and player stats
- Provided clear reasoning for best player choice

Time: 3-4 hrs / month

MONTH 6

Shopkeeper Interview Report

Skill you'll build: Research Skills

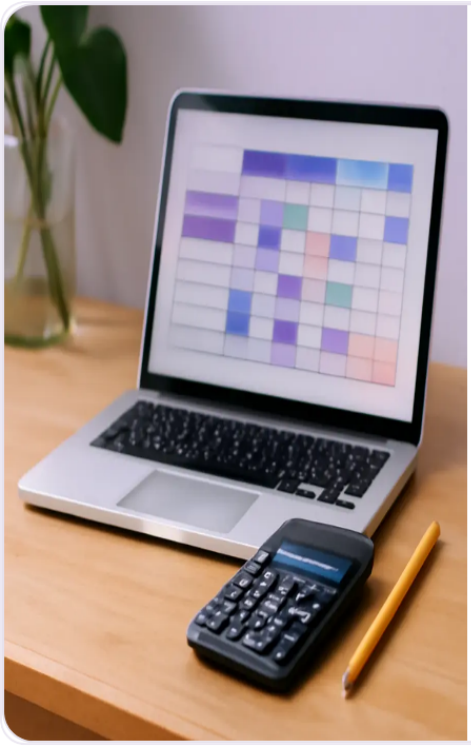

Project details

Visit a local shop and interview the shopkeeper about how they set prices and manage their stock. Take notes during the interview. Write a short report summarizing what you learned about running a small business. Share your report with your teacher or family to discuss business basics.

Success criteria

- Completed a detailed interview with a shopkeeper
- Wrote a clear summary report of the interview

Time: 3-4 hrs / month

MONTH 7

Festival Gift Budget Plan

Skill you'll build: Data Analysis

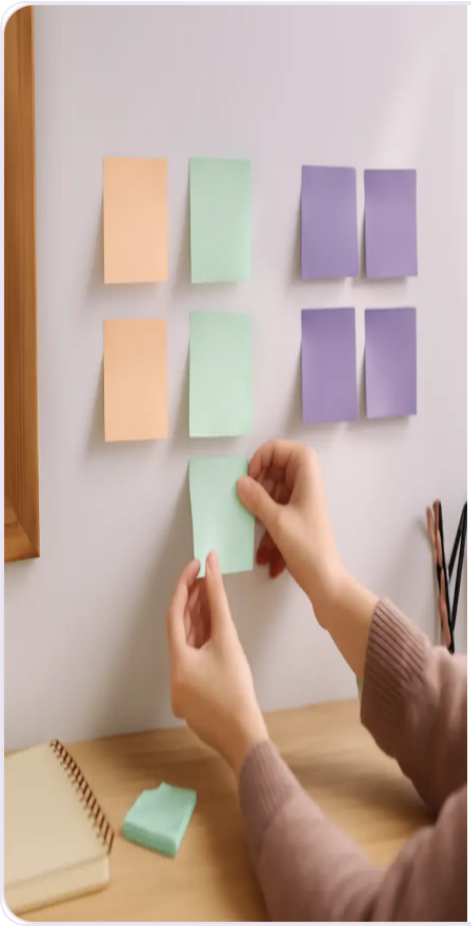

Project details

Create a simple budget plan for buying gifts during a festival using paper or a spreadsheet. List the gifts, their costs, and total spending. Suggest ways to save money while still buying meaningful gifts. Share your budget plan and savings ideas with your family.

Success criteria

- Created a clear and organized budget plan
- Suggested practical ways to save money on gifts

Time: 3-4 hrs / month

MONTH 8

Community Problem Solutions Report

Skill you'll build: Stakeholder Communication

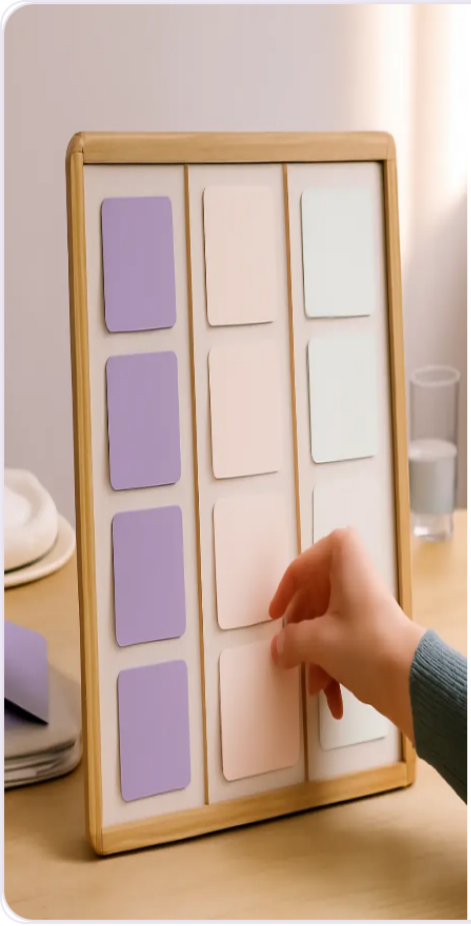

Project details

Interview at least five neighbors about a specific problem in your community and record their ideas for solutions. Organize the information into categories such as causes, effects, and proposed actions. Write a report summarizing the main points and different perspectives. Present the report to your family or a local group to inform them about the issue and possible solutions.

Success criteria

- Interviewed at least five community members
- Organized and summarized diverse opinions clearly
- Presented the report to an audience

Time: 3-4 hrs / month

MONTH 9

School Improvement Proposal Document

Skill you'll build: Policy Strategy

Project details

Identify a common problem at your school that affects students or staff. Draft a new rule or policy aimed at addressing this problem, explaining how it will help. Share your draft with teachers and classmates to gather their feedback. Revise your proposal based on their suggestions and prepare a final document to share with school leaders.

Success criteria

- Created a clear and actionable school rule proposal
- Collected and incorporated feedback from peers or teachers
- Prepared a polished final document

Time: 3-4 hrs / month

MONTH 10

Economic Concept Video Explanation

Skill you'll build: Presentation Skills

Project details

Choose a simple economic concept like supply and demand. Create a short video or recorded talk explaining the concept with easy examples. Use drawings or props to help explain. Share your video with friends or family and ask for their questions or comments.

Success criteria

- Produced a clear and engaging explanation video
- Shared the video with an audience and received feedback

Time: 3-4 hrs / month

MONTH 11

Online Price Comparison Report

Skill you'll build: Critical Thinking

Project details

Select three products and research their prices on different websites or stores. Record the prices and compare which offers the best value for money. Write a report explaining your findings and reasoning. Share your report with a family member or teacher.

Success criteria

- Collected accurate price data for three products
- Provided a logical explanation of best value choice

Time: 3-4 hrs / month

MONTH 12

Local Jobs Research Report

Skill you'll build: Research Skills

Project details

Research common jobs in your local area by reading online or interviewing adults. Find out what skills are needed for these jobs and how they help the community. Write a short report summarizing your findings. Share your report with your class or family to discuss local careers.

Success criteria

- Gathered detailed information about local jobs
- Wrote a clear report on job skills and community impact

Time: 3-4 hrs / month
