A YEAR OF SMALL STEPS

# Sports Coach, 12-month plan

## A day in the life

In the 2030s, a sports coach works closely with AI systems that analyze athlete data and suggest personalized training adjustments. They focus on interpreting AI insights and motivating athletes, blending technology with human understanding. Communication and emotional support remain key, as coaches help athletes apply strategies and stay mentally strong during training and competition.

## Skills your child will build

Data interpretation | Collaboration | Motivation | Emotional intelligence | Communication | Problem solving

MONTH 1

### Scoreboard Detective

Skill you'll build: Data interpretation

**Project details**

Collect scores from your favorite cricket matches online and create a simple chart on paper showing runs per over. Look for patterns like when the team scores most runs and write a few sentences about what you found.

**Success criteria**

- Chart clearly shows runs per over
- Written pattern summary is easy to understand

**Time: 3-4 hrs / month**

MONTH 2

### Teamwork Tactics

Skill you'll build: Collaboration

**Project details**

With 2-3 friends, plan a mini sports game and write down roles and rules on a whiteboard or large paper. Practice once and discuss what worked well and what could improve for better teamwork.

**Success criteria**

- Clear roles and rules documented
- Group discussion notes improvements

**Time: 3-4 hrs / month**

MONTH 3

## Cheer Champion

Skill you'll build: Motivation

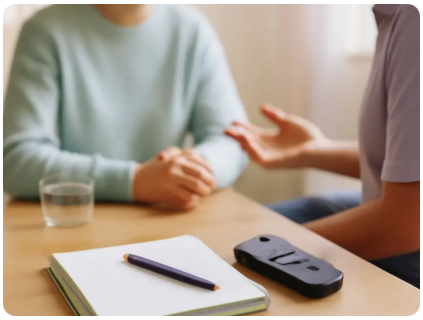

**Project details**

Create a short motivational speech or cheer to encourage your school team before a game. Practice delivering it with energy and record a video to share with family or friends.

**Success criteria**

- Speech is positive and energetic
- Video recording shows confident delivery

**Time: 2-3 hrs / month**

MONTH 4

## Feel the Game

Skill you'll build: Emotional intelligence

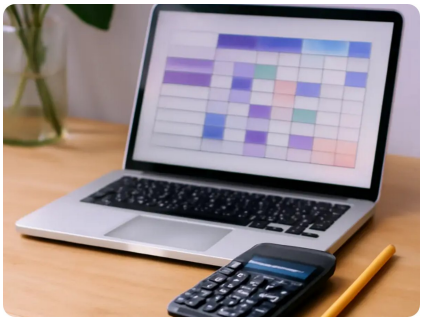

**Project details**

Interview a teammate or family member about how they feel before and after playing sports. Write a short report describing their emotions and how they handle them.

**Success criteria**

- Interview questions cover feelings
- Report explains emotional handling clearly

**Time: 3-4 hrs / month**

MONTH 5

## Data Coach Journal

Skill you'll build: Data interpretation

**Project details**

Keep a weekly journal recording your own or a friend's sports practice times and scores. Use simple graphs to track improvement and write a summary of trends you notice.

**Success criteria**

- Journal has weekly entries
- Graphs show clear trends

**Time: 3-4 hrs / month**

MONTH 6

## Game Plan Builders

Skill you'll build: Collaboration

**Project details**

Work with a small group to design a new training drill for your favorite sport. Draw the drill steps on paper and explain how it helps teamwork and skills.

**Success criteria**

- Drill steps are clear and illustrated
- Explanation links drill to teamwork

**Time: 3-4 hrs / month**

MONTH 7

## Motivation Mix Tape

**Skill you'll build: Motivation**

**Project details**

Create a playlist of 5 songs that pump you up for sports. Write a short note for each song explaining why it motivates you and share the list with friends.

**Success criteria**

- Playlist has 5 songs
- Notes explain motivation clearly

**Time: 2-3 hrs / month**

MONTH 8

## Emotion Coach Diary

**Skill you'll build: Emotional intelligence**

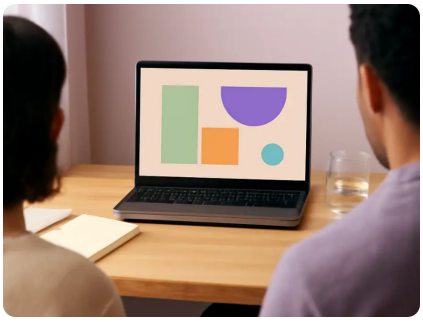

**Project details**

Keep a diary for a week noting your emotions before, during, and after sports practice. Reflect on how emotions affect your performance and write a summary.

**Success criteria**

- Diary has daily emotion notes
- Summary links emotions to performance

**Time: 3-4 hrs / month**

MONTH 9

## Coach’s Talk

**Skill you'll build: Communication**

**Project details**

Prepare and deliver a short talk to your family about why sports coaching is important. Use clear points and examples to explain your ideas.

**Success criteria**

- Talk has clear points
- Family understands coaching importance

**Time: 3-4 hrs / month**

MONTH 10

## Solve the Sports Puzzle

**Skill you'll build: Problem solving**

**Project details**

Identify a common problem in your sports practice, like slow warm-ups. Brainstorm 3 solutions and test one during practice. Write about what worked and what didn’t.

**Success criteria**

- Problem and solutions clearly described
- Test results are recorded

**Time: 3-4 hrs / month**

MONTH 11

## Coach’s Newsletter

Skill you'll build: Communication

**Project details**

Create a simple newsletter for your team with tips, schedules, and motivational quotes. Use drawings or photos and share it with teammates or family.

**Success criteria**

- Newsletter includes tips and schedule
- Design is neat and attractive

**Time: 3-4 hrs / month**

MONTH 12

## Practice Problem Solver

Skill you'll build: Problem solving

**Project details**

Watch a recorded sports practice or game online. Spot one problem in player movements or teamwork and suggest improvements in a short report.

**Success criteria**

- Problem is clearly identified
- Report suggests practical improvements

**Time: 3-4 hrs / month**
